

We reduce any noise

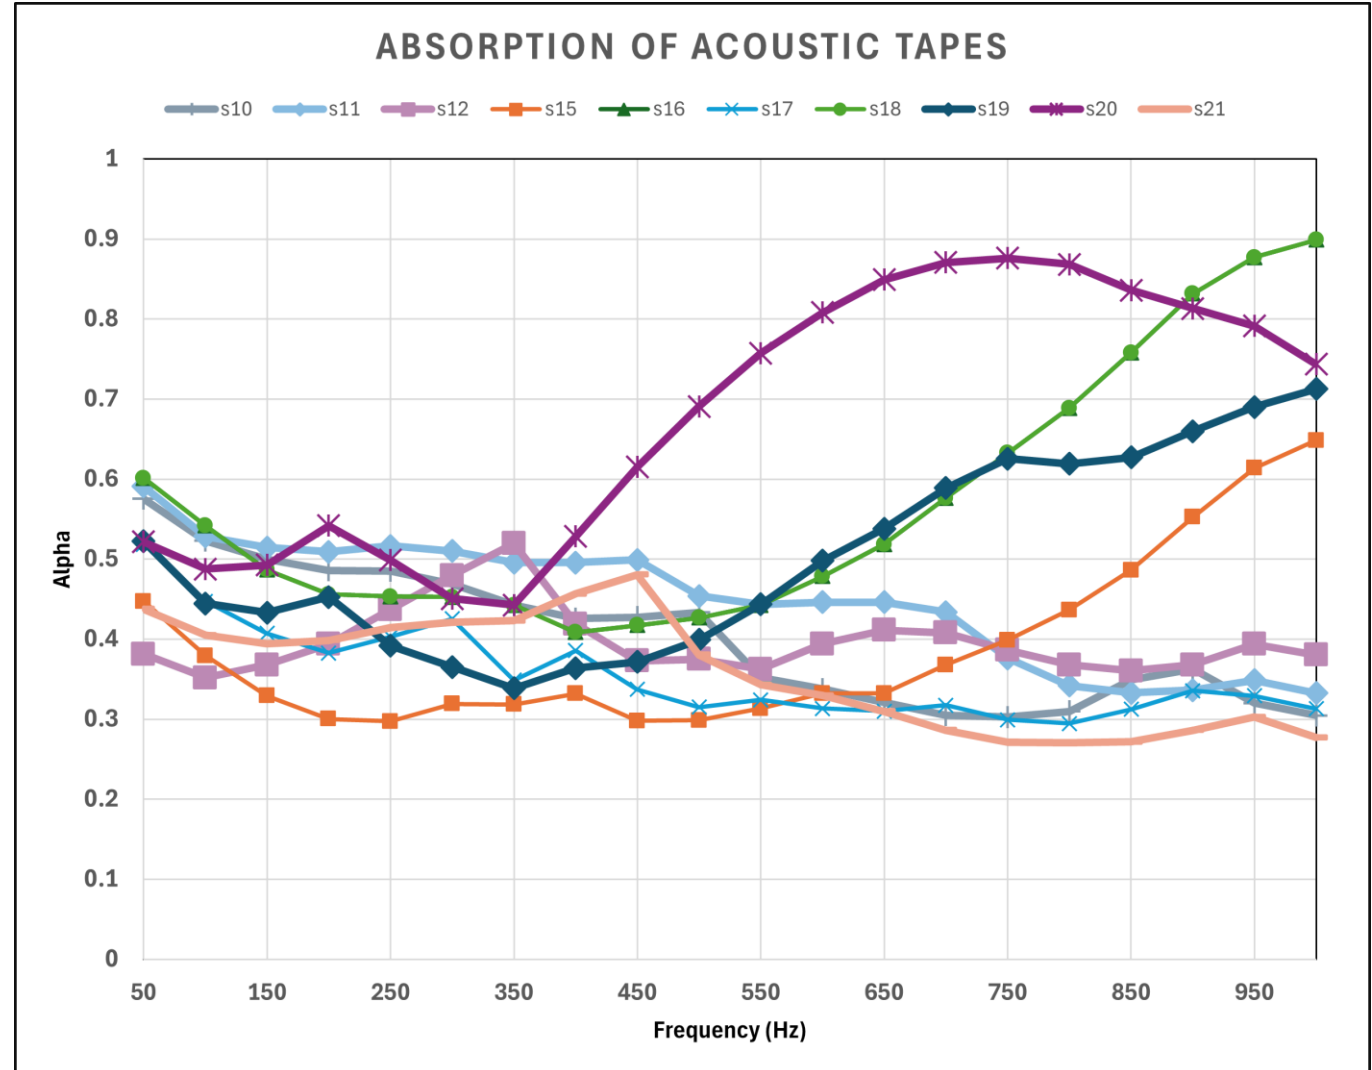

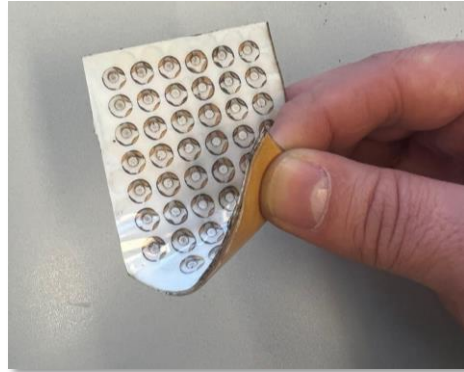

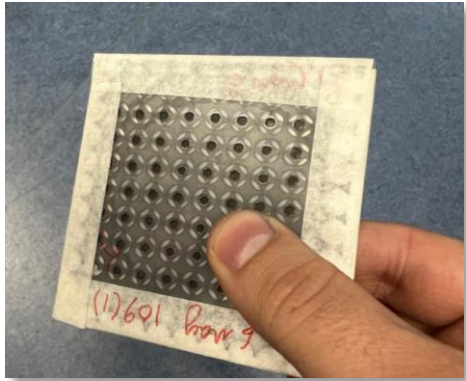

ATA MUTE

The Power of Silence

Acoustics and Thermo-Acoustic noise **Mutation**

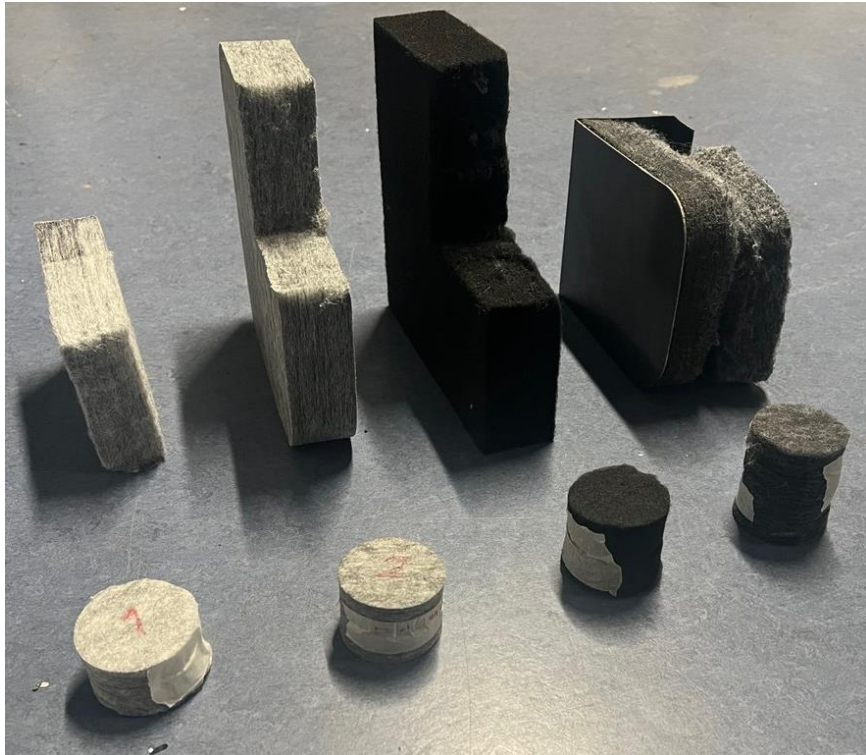

Acoustic Tapes™

Ultra-thin (<1mm) ABC Mufflers and Acoustic Tapes can be tuned to have maximum of theory absorption which is 50% at frequency range of 20 Hz to 4000 Hz and between 65% to 90% with thickness between 0.5-2 cm.

Upgrading Acoustic material™

Boost your acoustic material for low-frequency absorption by adding just 1mm of our ABC muffler!

RESULT OF IMPROVED ACOUSTIC MATERIAL ABSORPTION
